From Principal's Desk:

Dear parents, patrons

Greetings from SPS

As school is coming close to the academic year, we witness a lot of positive changes among students. It is very heartening to note that there is physical, mental, intellectual and emotional development among students. We were able to achieve all these by giving them a lot of exposure to different activities/ events/ programmes that are planned and executed keeping in mind child at the center.

School takes the responsibility of orienting parents too. We organized 'Art of Parenting programme ' by renowned educationalist and a builder of many institutions Dr. Gururaj karajagi.

We want all our stake holders to become enlightened, contributive and proactive.....

Thanks and regards

Principal, SPS
