## **From Principal's Desk**

Greetings from Sangameshwar Public School !

We are a new age educational institution run under the aegis of Sangameshwar Education Society founded on timeless, old world values. Late karmayogi Shri Appasaheb Kadadi envisioned a kind of institution that caters to the needs of all. His farsightedness and vision resulted in the formation of Sangameshwar Public School. His legacy is followed by our honourable Shri. Dharmaraj Kadadi who dreams of taking this institution to greater heights.

We aim at developing the heart and mind of the learners in an environment of freedom, respect, love and affection. Our curriculum focuses on holistic development of learner in academic and co-curricular areas. It provides opportunities for developing skills, values and attitudes in the classroom and outside the classroom. The teaching learning practices are oriented towards self-learning, learning at one's space, ability and interest level. It is based on concepts and not the gross content. It is child friendly, value driven and related to real life.

To achieve all these, the management has put in their heart and soul in giving state-of-the-art facilities. We have tied up with Academy for Creative Teaching, Bengaluru for intellectual infrastructure. Our goal is to make school not just a center of learning but also a center of excellence. We hope to see the children that are educated at SPS have the heart of Buddha and the brain of Einstein.

Warm regards,

**Gayatri Kulkarni**

## जीवन जगताना .....

जीवन जगताना .....

देवाकडे कधी काही मागायचं नसते.

देवाला फक्त " संकट " मागायचे असते .

संकटातून शहाणे व्हायचे असते.

संकटातून पळवाटा काढायचे नसते.

कारण पळून तिथेच यायचे असते.

चिंता करत बसायचे नसते.

कारण आपले बळ कमी होत असते.

माणूस पण कधी सोडायचे नसते.

माणूस म्हणून जगायचे असते.

व्यसनाचे बळी पडायचे नसते .

कारण व्यसन माणसाला आपले नोकर करते.

जगात वावरताना गोड बोलायचे असते.

कधी कोणाचे मन दुखवायचे नसते.

कष्टाची भाकरी खायची असते.

चोरीची तूप रोटी पचत नसते.

या जगात कोणी कोणाचे नसते.

पण जगताना नीट वागायचे असते.

### Career guidance- what schools can do ?

Gone are the days when students after completing 10<sup>th</sup> std would join one of the streams –arts, Science or commerce and end up choosing engineering, medical, banking, law, teaching etc. This is not the scenario now. With globalisation and liberalisation , there are myriads of options that are open for students. Many disciplines in arts, science and commerce are making inroads into job market. The students have wide range of options depending on which they can pursue higher studies. The question is how to make students aware about this? This may not be a problem in metros but small towns and villages have lack of information . Here schools play a pivotal role in educating both students and parents.

Schools can arrange career guidance programme, can have an expert talk about various career options for grades 10 to 12. They can also invite alumni that have chosen courses that are in high demands and arrange for open interaction with parents. They can be shown videos of these courses. Career guidance can be planned in annual calendar and be made a part and parcel of school programme. .

Another way of reaching out to students is to keep the teachers at school level abreast with latest courses and the trends in the job market. Through mentoring and counselling , one can guide the students to opt for the course that is most suitable for them.
