

Shri sangameshwar Education Society's

Sangameshwar Public School, Solapur

Pre-School ANNUAL REPORT... (2019-2020)

Good Evening Everybody

Mrs. Kamal Shah mam our "Guests of Honor" for this evening, Shri Dharmraj Kadadi sir President of today's function, Ms Sheetal Kadadi mam Member of Sangameshwar Education Society, all Kadadi family members, Prin. Dr. Rajmanya mam, Night college Principal Dr. S J Awate , Vice Prin. Hulli Sir, MS Gayatri Kulkarni mam Principal of Sangameshwar Public school, Mr. Vadiraj Kulkarni sir Vice Principal of Sangameshwar Public School, vice President of PTA Ms Madhavi Gaikwad , Parents, all Staff Members of Sangameshwar Education Society, and my dear Students.

It gives me great pleasure to welcome you to our Annual Day this evening and to present the Annual Report of Sangameshwar Public School for the year 2019- 2020.

It has been just a year since I have taken over the charge as a Supervisor of this reputed school and the legacy still continues.

We have selected our theme for this year, the Family. Love and attachment are closely linked, and I think that if we at Sangameshwar Public School have achieved anything this last year, it has been the result of love and affection on the part of everyone associated with this institution, but very

especially the staff, who have strived to mold our Children into future shining citizens of India.

Let me now begin my report with the activities of the Pre-Primary section.

All the skills gained through the year and the events of the Pre Primary sections are best described in pictures. So here's a good supply of them.... (Pictures shown)

A complete grown personality has to have a balance of physical, emotional, social and spiritual and mental development. Today's children are genius and the future belongs to them.

Guided by these virtues, we run our programs, keeping in mind the potential of child and a way to identify the inherent potential of child and then to nurture it.

Academics-

Our curriculum is based on the five C skills they are - Collaboration, Communication, Critical thinking, Confidence and creativity. These skills are developed through different activities.

- to develop finer and gross motor skills through activities like beading, coloring, finger printing, lacing board, pyramid making, clay modeling etc.*
- to develop vocabulary activities like free play, doll house, rhymes, riddles, alphabet board for identifying & recognizing, sounds through phonics, storytelling, games with letters etc.*
- to develop writing skills activities like tracing on rangoli, sand paper tracing, clay modeling , Air, water and skin writing.*

- to develop **number concept** different games with numbers, puzzles, counting and serration through beading, shapes, size, colors through observation in surrounding etc.
- to give real life experience and first hand information we conduct different activities like rain water harvesting, demo on first aid, visit to different places like supermarket, Bank, temple etc.

I now turn to the Social and Spiritual dimensions of a child's growth. We have been keeping up with our Value Education as well as our Religious Education for students. The tradition of celebrating festivals and important days of each month has been maintained. But over and above these theoretical inputs, what is more important is the ethical and moral atmosphere that we try to inculcate in all our children, for as we know well, values are caught rather than taught. So here are different celebrations like- Ashadi Ekadashi, Christmas, Navratri, Diwali, Music day, Teachers Day, grandparents day etc.

The another dimension of the human personality is the physical. I now turn to SPORTS AND GAMES.

The year 2019-2020 has been an eventful year for our students on the sports field which helped our young sportsmen to find their talent and sharpen their skills.

Sports activities like Cup Balancing, Hurdle Race, Pyramid making and puzzle Race, Frog Jump, Book Balancing etc. Very Special sports activity conducted was Fun games Like Banana eating, Hula-hoops and most attractive was games for parents suggested by our respected chairman sir

and beloved Sheetal mam. And really it added color to the event and parents enjoyed too. It was really a lovely experience.

Training for teachers-It is a Managements vision to provide the world with motivated, responsible and disciplined teachers, to shape a better future. They believe this can be achieved by strengthening foundation upon teachers which they can create a successful future for themselves and the society around them only by empowering there knowledge. So Mgt. is spending much on teachers training. A special group of teacher trainers from Academics of creative Teaching from Bangalore is hired and every two month teachers are trained with all new methods of teaching. Teachers are also Montessori trained.

A word about, and to, the parents of our students: Parents, you have been simply fantastic in your cooperation and collaboration with the school in so many of its activities you parents have always been there. As for the PTA, it has done its best to help in building up a favorable atmosphere in which parents and teachers can both work together towards a common goal - the welfare of our children.

Very many thanks to Chairman Shri. DharmrajKadadi Sir ,Ms. SheetalKadadiMaam, Mr. Santosh Patil Sir, Ms. Deepali Karajgikar Maam and Ms. Uma Bagalkote maam,Ms. Gayatri Kulkarni mamand Mr. Vadiraj Kulkarni sir for their invaluable guidance and assistance during the entire year. I solely feel the need for them ever so often.

Finally, I can hardly tell you how blessed Sangameshwer Public School is to have such a wonderful and cooperative staff. Without each one of my staff members, it would be impossible for me to guide this ship of Sangameshwer Public School to its destination. Thank you so much, dear teaching and non-teaching staff members of Sangameshwar Education Society.

Truly, almighty have been so kind and gracious to us! I think that our Annual Report has shown that our kids have achieved a lot indeed.

More, no doubt, can still be done... excellence in every field should be our goal!

Thank you.
